

## **HONORS PHYSICAL SCIENCE**

Incorporating Ninth/Tenth Grade Earth and space Science Benchmarks and Indicators

### **Course Description:**

Physical Science presents the basic concepts of Earth and Space Science, Chemistry, and Physics, including the nature of matter and the nature of energy. Honors Physical Science is designed to address Ohio's Standards as well as prepare the students for Honors Biology. Students enrolling in Honors Physical Science are expected to move into Honors Biology in their sophomore year. Students will conduct lab experiments for inquiry-based learning situations and participate in in-depth research on current topics related to science. Students will move at an accelerated pace and be expected to complete in-depth projects and assignments in a timely manner.

This course is for high school credit and all applicable End of Course exams must be taken.

### **Course Materials:**

*CPO Physical, Earth, Space Science* Item# 492-3910, Delta Education/School Specialty
