## Ryleigh Spacht Twinsburg

Ryleigh Spacht is a junior at Twinsburg High School and is enrolled in CVCC's Architectural and Mechanical Design (AMD) program instructed by Erik Ward. Since she was little, Ryleigh has enjoyed building and designing things, so deciding to go into the AMD program at CVCC was a no-brainer. Ryleigh's favorite thing about the AMD program is all of the hands-on and problem-solving skills that are involved. She's currently working on designing and painting cornhole boards for the CVCC November Craft Show, which has been her favorite project in class so far!

*"My goal and motto is to design, build, create, and sell. The AMD program has made me feel ready for the real world, rather than just attending school to fulfill a graduation requirement."*  
-Ryleigh Spacht

After graduation, Ryleigh hopes to attend college to obtain a degree in business. Along with continuing her education, she plans to acquire her real estate license. Fun fact, Ryleigh hopes to build her own house one day!

Ryleigh's advice to current and future students within the AMD program is to take your time to do and create quality work. Outside of academics, Ryleigh is on the hockey team at her high school. Keep up the great work, Ryleigh!
