Class Craft Requirements for Student Use:

- Have students use their school Google account to sign in
- Teachers can reset passwords if student account does not have active email
- Teachers can use Google Classroom when creating a class and importing students
- If students are entered by the teacher manually, teachers can use first and last name
- Students must have a signed COPPA form giving consent, on file.
  The COPPA form is a form that is a part of their returning or new student registration through Infosnap.
