CommonLit Requirements

1. Student must have signed COPPA form on file giving consent
2. Students must sign up using generated class code from the teacher
3. If classes are imported from Google Classroom have the student login using their school Google account
4. If classes are created using the class code without importing Google Classes have the student sign up by entering the class code and logging in with their school Google account
5. If a student will not be logging in using their school Google account, have the student sign up using the class code, have the student use their first name, last initial as their username and not enter an optional email when they create their account.

Step 1: Sign Up with CommonLit

Your teacher may have already created your account for you. If they have, they will tell you to log in through Google or Clever by clicking the "Login With Google" or "Login With Clever" buttons on our login page.
