## **My Alerts**

## **Objective:**

Demonstrate how to ensure app users receive push notifications.

To receive push notifications in the app, each app user has to have them toggled on in the 'My Alerts' section of their app. Below is an example of having the 'Enable Push Notifications' toggled off:

RTS	-URAPICES * IL
nable Push Notifications	
my_alerts.show_news_on	_newsfeed_tor
eneral News	
rent Alerts - Daily	
rent Alerts - Weekly	
witter	
filcox Primary News	
AppStore	errnee Google play
	(
Horiga II Jaco	

\*It is important to note that if the categories below are toggled on but the 'Enable Push Notifications' at the top is toggled off, **all** notifications are blocked. 'Enable Push Notifications' **must be toggled on** for the app user to receive any notifications

Step 1: In the App Menu, Click on 'My Alerts'

Step 2: Toggle on 'Enable Push Notifications' at the top.

Toggle on all newsfeed categories you want to receive notifications about.

Enable Push Notifications	
my_alerts.show_news_and_get	_alerts_for
General News	
Event Alerts - Daily	
Event Alerts - Weekly	
Twitter	
Wilcox Primary News
