

Assignments - 2022

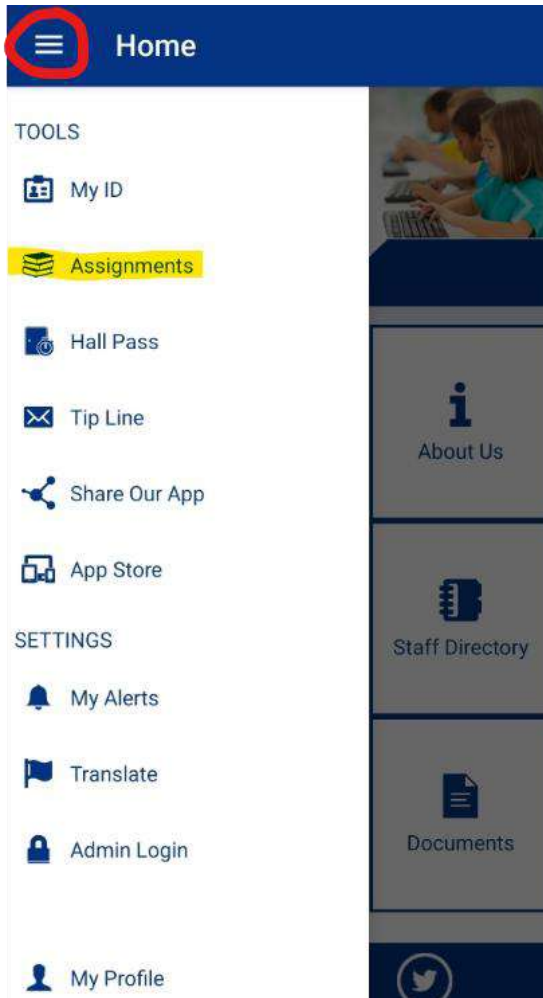

Objective:

To explain the functionality of the "Assignments" tool available in the app for Students.

"Assignments" is a digital planner tool for your students.

Students can add assignments, add classes, link the assignments to their respective classes, and set assignment reminders. ***This is an end-user feature only. Teachers cannot add assignments to a student's planner.***

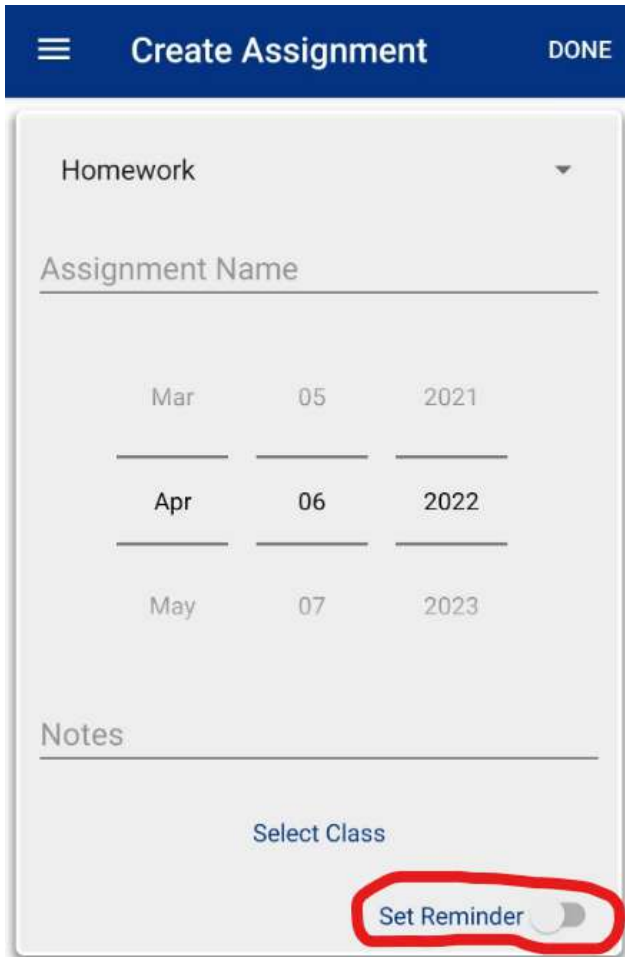

Located under "Tools" in the App Menu:

Students can "Add Assignments":

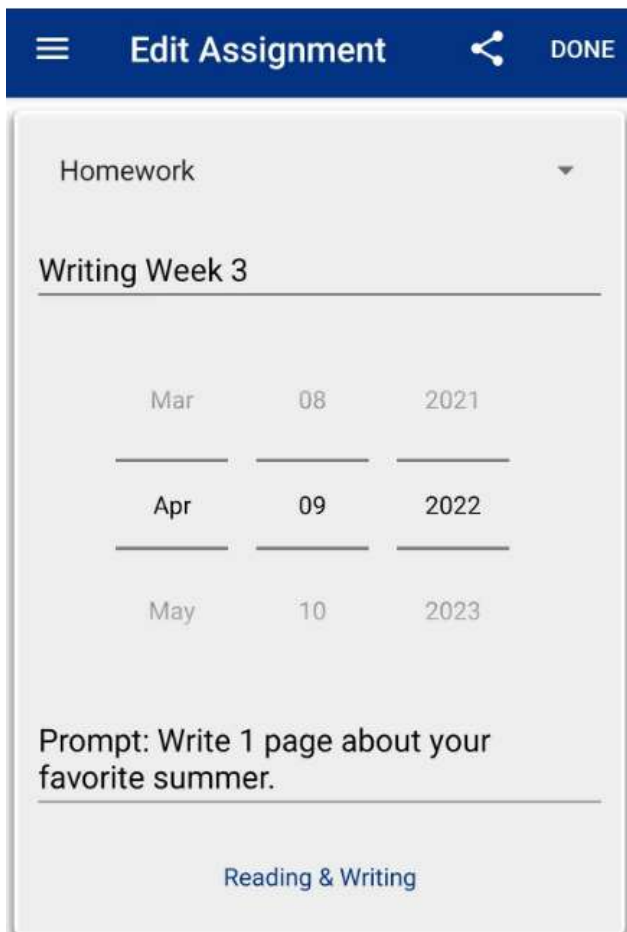

They can create an Assignment and toggle on "Set Reminder":

When they select the three dots on the top right, they can then select “My Classes” and add their classes:

Then if they go to their Assignments, they can Edit the Assignment and select the Class the assignment is for:

Students can edit the assignments or classes at any time!
