Flipgrid Requirements and Recommendations

1. Students must have a COPPA consent form on file where the parent or guardian has given consent.

2. Make sure Grid Security Options are set to desired options when setting up your grid. To check Grid Security Options:
    ●   Click Actions, Edit Grid next to the grid name
    ●   Scroll down to Security Options

3. Students can only access Flipgrid using a Grid Code assigned by the teacher

4. To Share a Topic:
    ●   It is suggested to use Google Classroom to create an assignment. You can then offer feedback in Google Classroom and grade the response if needed.
    ●   Using Google Classroom will allow you to give feedback without an email as well

5. It is suggested you send home instructions on how to create a response if students will be using a pc, laptop, tablet or mobile device at home.

6. According to the Flipgrid Children's Privacy Policy, if location services are enabled on the device the student is using to create a response, Flipgrid will collect the student's location information.   Parents can disable location services if they do not want the information collected by Flipgrid.

7. When students create a video response, they are prompted to enter the following fields

Please have them enter:

Last initial only
NO email address, unless you have permission from the parent to use the parent's email.

Student gmail is not available at this time.
