

Math Playground Requirements

Requirements of free version:

1. Students must have a signed COPPA form giving consent, on file. The COPPA form is a form that is a part of their returning or new student registration through Powerschool Registration
2. Students and teachers do not need to create accounts when using the free material
3. Free resources can be added as an assignment, question or announcement to the teacher's Google Classroom. The assignment, question or announcement contains a link to the specific activity on MathPlayground

Paid subscription requirements:

1. Students must have a signed COPPA form giving consent, on file. The COPPA form is a form that is a part of their returning or new student registration through Powerschool Registration
2. Students do not create accounts
3. Students login with a *Classroom Name* and *Student Sign In Code* supplied by the teacher.
4. The student is not asked to enter any personal identifiable information when signing into MathPlayground using the classroom name and student sign in code. See picture below.
