INTRODUCTION:

A prudent reader should not make assumptions or believe that this forecast by its nature conveys anything more than an indication of a probable future financial position of the School District. Events and circumstances frequently do not occur as expected and will significantly alter the outcomes and results of the forecast and assumptions. Therefore, professional sophistication, due diligence, caution, and care are required when using and interpreting forecast information.

The Five-year Forecast is a critical planning document for the Twinsburg City School District. Forecasts are built on assumptions and current state and federal laws that *can, will* and *do* change over time. The forecast, numbers and assumptions while made in good faith cannot be guaranteed.

The Five-year Forecast is designed to provide the administration, board of education and the public a **general indication** of a probable future financial position of the School District based on information currently available to the School District. The reasonableness and accuracy of this forecast and assumptions rest with the district administration and the Board of Education.

In 1999 House Bill No. 412 mandated that school districts annually produce a five-year forecast by December 31 and update the forecast as necessary. The Forecast documents and provides the transparency necessary to keep all stakeholders informed of the District's projected financial position. If a district entered Fiscal Emergency, one could not claim "I did not know". Current statute requires the Forecast be submitted by October 31 with an update due in April or May.

The Five-year Forecast is a necessary tool focusing management's attention on future financial needs while facilitating strategic planning and discussion. The financial plan should provide for the optimal allocation of scarce resources in the delivery of services to our kids. What follows is our attempt to create a forecast using professional judgment within the philosophical base rooted in four key concepts. It is a look into the future through a snapshot of today.

- **REALISTIC** - We all want the best for our children. Yet there are economic realities that dictate what is possible for our school district. Our future should be realistic given our unique circumstances.
- **CAUTIOUS** – A cautious approach is neither overly optimistic nor pessimistic. It seeks the prudent path in predicting revenues and expenditures.
- **PROBABLE** – Given the current circumstances and the goals of our school district, this is the forecast that is most likely to occur.
- **SUPPORTABLE** – A good set of projections needs to include the rationale for assumptions. This is a combination of historical trends, current conditions and professional judgment about the trends.

It's important to note the Ohio Supreme Court has ruled and reaffirmed its ruling through appeal that the current method of funding public education in Ohio is *Unconstitutional*. The legislature has made attempts to comply with the DeRolph decisions and correct the funding method that overly relies on local property taxes, but to date the ruling has not been satisfied.

During these uncertain economic times the administration and Board of Education endeavor to reduce expenditures and continue to examine areas to make future resource reallocations. Our goal is to create dynamic curriculum and learning environments that challenge all students' creative, analytical and critical thinking abilities and skills beyond standardized requirements. Our focus on student achievement has garnered multiple "Excellent" and "Excellent with Distinction" ratings from the Ohio Department of Education. Our focus on fiscal responsibility has earned numerous Certificates of Achievement for Excellence in Financial Reporting as awarded by the Governmental Finance Officers Association.

RECENT EVENTS:**STATE OF THE STATE:**

Prior Governor Ted Strickland (D) in 2009 proposed a comprehensive reform of the then current funding model to a new Ohio Evidence Based Model (OEBM). The intent is to increase the State's share of educational funding via targeted assistance. Current Governor John Kasich (R) has discarded the OEBM and proposed a new funding system. At the same time has embraced mechanisms under the guise of educational choice to bleed away tax dollars to charter schools, electronic schools, and other profit based educational enterprises that never have to pass a levy for funding.

FINANCIAL UNCERTAINTY:

The federal government efforts to stem the tide of the financial meltdown added hundreds of billions if not trillions of dollars to an already staggering national debt. Hundreds of billions paid to bail out the banks and other financial institutions; tens of billions more for the auto industry; \$275 billion for homeowners and mortgage lenders; and a giant \$787 billion stimulus package to jump-start an economy spiraling downward. The Economic Stimulus is shifting us from an economic crisis to a debt crisis! The national debt is over \$15 Trillion. Nearly fifteen percent of federal revenues are used to pay interest on federal debt, second only to spending for the social programs of Health and Human Services, HUD and food stamps.

SEQUESTRATION: the Budget Control Act of 2011 proposed across the board cuts to the Federal budget. This legislation would greatly impact schools by substantial funding reductions to Federal programs and grants for special education, reading intervention, food programs, etc. Federal rebates for HB264 energy conservation projects would be cut. Consequently, the school districts across Ohio would have to fund these programs from their general operating revenues further stressing the districts' budgets.

CHRYSLER PLANT CLOSING: The Twinsburg School District was informed on May 1, 2009, that the Chrysler Stamping Plant, Twinsburg largest employer, would close March 2010. While the closing was not completely unforeseen the timing of the closing was unexpected. Chrysler has paid approximately \$450,000 annually in real property taxes to the School District. The property's valuation and consequently real estate taxes have been substantially reduced. In addition, the City's intends to Abate Property Taxes to attract new businesses to the vacant land.

LEGISLATION: State legislation, House Bill 66 (HB66), enacted July 1, 2005 eliminates the taxation of *Tangible Personal Property* (TPP). Real Property Tax along with TPP Tax, were the major sources of funding for many Ohio School Districts. **High performing schools like Twinsburg, Solon, Bedford and Cuyahoga Heights will experience sharply reduced revenues.** For Twinsburg School District this lost revenue accounted for \$9.8 million or approximately 28% of revenues. The Ohio Department of Education (ODE) and the Ohio Department of Taxation (ODOT) have developed spreadsheets to illustrate the TPP phase out. Visit http://tax.ohio.gov/divisions/personal_property/PPT_law_changes_070303.stm. or see the ODE web site www.ode.state.oh.us

BUDGETARY COST CUTTING: Operational Change Plan: The School District has made substantial efforts to contain and reduce costs. Through attrition and cost cutting measures the School District has permanently cut \$2.6 million dollars from the 2013 and future budgets. Negotiating labor contracts, upgrading equipment, consortium buying, grant opportunities, and scrutinizing personnel will reduce overall costs. In addition the District has instituted Pay-to Participate fees, extracurricular fees and academic course fees for the upcoming school years.

It is important to note that forecasts will differ. Decisions made at the Federal, State and local levels, unknowns such as energy unit costs, health care premiums, the number of sick days taken, and special education requirements impact the future years presented in the forecast.

LEVY: The Twinsburg School Districts appreciate the support of our local community. November 6, 2013 voters approved a 4.9 mill levy generating approximately \$3.8 million annually. As the next piece of the Operational Change Plan a 6.9 mill current expense levy originally approved in 1993 will be on the November 2013 ballot for renewal. As District revenues fall below expenditures, the Board of Education is seeking additional levy dollars to stem the District's looming financial hurricane and ensure future viability.

JOB WELL DONE: Twinsburg City School District has received the highest academic ratings of "Excellent" or "Excellent with Distinction" on the Ohio Department of Education Report Card. Three times the School District has received the prestigious "Making Your Tax Dollar Count Award" given by Auditor of State's Office. While attaining these ratings and awards, the School District has closely watched expenditures looking for ways to reduce costs and getting the most for each tax dollar. As a result, our current per-pupil expenditures are below the state average.

REVENUES:

Line 1.010 - Real Estate Taxes

The Housing Market/Home Mortgage fiasco has prompted Ohio Department of Taxation Officials to warn districts that Real Estate Valuations will actually decrease after decades of increases. Previously noted, the Chrysler facility was dismantled reducing the taxable value while any new facilities will be abated by the City of Twinsburg. The Summit County Fiscal Officer notified the School District that property valuations declined by \$70 million resulting in a reduction of property tax collections. Monitoring of real property tax collections is crucial as it represents over 56% of revenues.

Line 1.020 – Tangible Personal Taxes (TPP)

In prior State Budget Bill HB66 is legislation eliminating the tax businesses paid on virtually all Tangible Personal Property. The original legislation set forth that the State would fully reimburse districts for five years the amount of lost revenues. Starting in tax year 2011 the State would incrementally eliminate this reimbursement by 2018. A tax once under local control has been eliminated and replaced by a Commercial Activity Tax. The State's biennium budgets changed, for the fourth time, the laws governing the loss of TPP. The continued reimbursement of TPP taxes is VERY speculative given the economic and political climate. The result is that Twinsburg School District will lose approximately \$9.8 million and will be faced with a *FISCAL EMERGENCY*.

Line 1.035 – Foundation Program

The Foundation Program is the State's aid program for school district operations. In 2009 HB 1 renamed the SF-3 Foundation form to the PASS (PATHway to Student Success) form for fiscal year 2010. The State's latest biennium budget eliminated the PASS form and replaced it with a Bridge Foundation Funding mechanism. Due to the School District's relatively high ratio of property value per pupil, foundation aid from the State is and will remain flat and a relatively minor portion of total revenue. Future year revenues are very speculative in light of recent State budget shortfalls and some State officials stating they feel public education is adequately funded.

Eroding local resources further are charter schools, EdChoice and the autism scholarships. State Foundation Aid is deducted at a higher rate and not the per pupil allocation the School District actually receives. Moreover, charter schools do not have to pass levies, operate outside many legal requirements and unfunded mandates placed on public schools and many receive poor grades on the Ohio Department of Education's Report Card not to mention the misuse of funds uncovered by the State of Ohio Auditor.

Casino Money: Ohioans have approved the establishment of Casinos in Ohio. There are estimates from differing sources that Ohio Schools would receive \$18 to \$20 per pupil from casino generated revenues. For Twinsburg Schools the approximate \$70,000 in potential revenue will be added to this line.

Line 1.050 – Homestead and Rollback including Direct TPP payments

Homestead and Rollback payments come from the State. These payments represent the reimbursement of a 10% discount given property owners and an additional 2.5% discount is given to owner occupied parcels. Direct payments from the State to reimburse the TPP tax revenue loss will flow through this line as required by the Auditor of State.

Line 1.060 – All Other Sources

All other revenues include interest on investments, tuition, rental fees, and miscellaneous receipts.

EXPENDITURES:Line 3.010 – Personal Services

Salaries for fiscal 2013 are based upon the current contracts for teachers and staff. Several positions will remain unfilled as staff retire and leave the District at the end of the 2012 school year. Regretfully, several teachers and staff members were laid-off to cut the District's budget deficit. Administration is also focused on reducing substitute and over-time pay. The Operational Change Plan will cut approximately \$2.6 million in salaries and benefits from the budget. In an effort to assist the district the teachers union has agreed to pay a higher percentage of health care premiums and also take freezes on the base pay. Over the next four years of the forecast these reductions will account for significantly lower expenditures. In light of looming deficits and with salaries and benefits accounting for nearly 87 cents of every dollar spent the School District may fall short of future staffing expectations as class size grows.

Line 3.020 – Employee Retirement and Insurance

Fringe benefits are calculated as a percentage of total salaries and wages. Costs for benefits include 14% for retirement (STRS and SERS), 1.45% for Medicare. Health Care costs have increased at about 10% annually. Recent health care claims history was well below actuarially determined claims. This resulted in the self-insured Health Care Consortium rebating three months of premiums to member districts for FY12. This is two more than typical and resulting in approximately a one million dollar reduction to health care costs. Since 1999, health care costs have tripled and continue to out-pace inflation.

Line 3.030 – Purchased Services

Purchase Services represent items from insurance, to copier leases, to legal fees, to health/nursing related services, to tuition costs for students educated by other districts. Also increasing are the costs for services for special needs students, test scoring, and professional development. The School District utilizes the buying power of the Ohio School Council Consortium for electricity and natural gas. The FY 12 year saw a significant reduction in natural gas cost and usage. The energy conservation project at the high school, the mild temperatures this past winter and the drop in natural gas pricing sharply reduced expenditures by approximately three hundred thousand dollars – a cost that will have to be added back in future years of the forecast. The School District and the city's fitness center have a utility sharing agreement. We budget and pay the entire utility cost and are subsequently reimbursed by the city for their portion of the cost.

Purchased service category has seen costs increase for computer software programs. These programs are for expanded learning opportunities and facilitating student assessments.

Line 3.040 – Supplies and Materials

This includes educational supplies and consumables, as well as cleaning supplies. Additionally, bus fuel, tires and repair parts for the School District's fleet of buses are incorporated in this category. The School District participates in several purchasing consortiums to reduce expenditure costs on routine purchases.

Line 3.050 – Capital Outlay

The Permanent Improvement fund is used for capital expenditures. The School District has not budgeted substantial resources for equipment, fixtures, furniture and textbook purchases from the General fund.

Line 4.300 – Other (Expenditures)

The major expenditures for this category are non-discretionary fees associated with the Summit County tax collection process in addition to fees the State charges. These fees are set by laws and cannot be changed by school districts. Also in this category are audit costs, ESC costs, membership fees, etc.

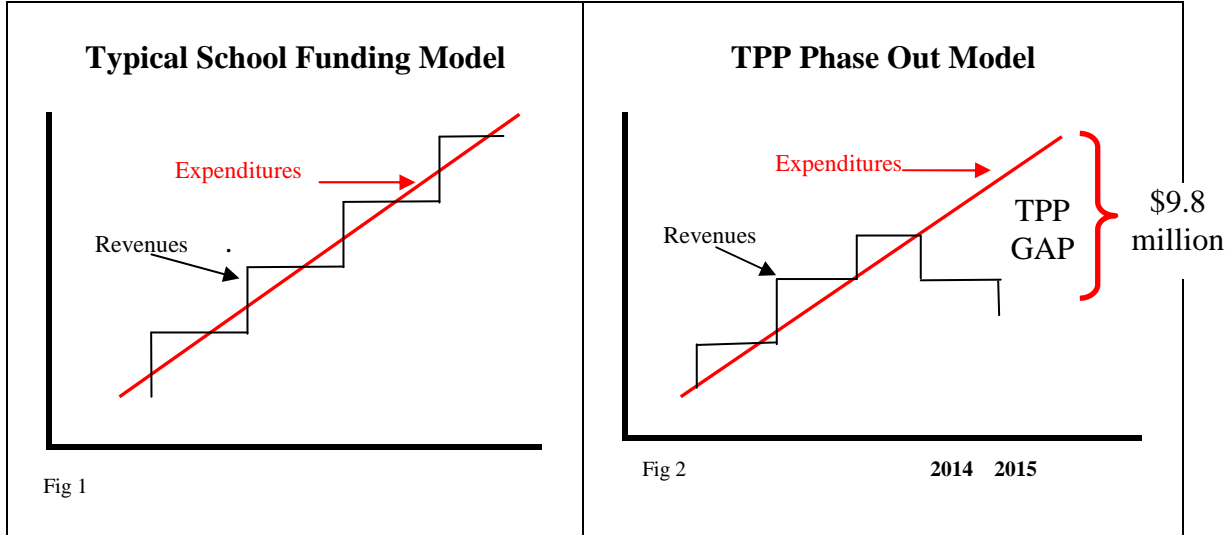

Lines 4.020 to 4.060 – Repayment of Debt Service

August 2010 the School District undertook a House Bill 264 Energy Conservation Project at the high school replacing lighting, boilers and HVAC controls. The \$2.6 million is financed via reductions in utilities. Furthermore, Purchased Services line 3.030 decreases as a result of this initiative. A government program rebates a large portion of the interest back to the district.

WHERE HAS ALL THE MONEY GONE?

A Cleveland Plain Dealer editorial from Sunday October 24, 2010 entitled “Schools need long-term FIXES, MONEY today” states “public schools are in deep, deep trouble.” It continues with “... excellent districts are imperiled by a shrinking tax base, rising number of needy and disabled students, galloping costs for special education, equipment, textbooks and services and a tide of new unfunded state mandates.” “These problems are likely to get worse as Ohio grapples with ... budget deficit(s).”

At the national level, Federal spending has inflated the national debt to over \$15 trillion. At some point the Federal Government will reach the limits of deficit spending. At the local level voters are frustrated with the overall level of taxation. Voter fatigue manifests itself in the ever increasing push back as districts attempt to obtain additional levy funding. Unfortunately, a school levy is one of the few places voters can voice their frustration with the political system.

Twinsburg School District currently has a significant fund balance. This is one-time money that will be used to balance the budget over the next 2-3 years. **THEN IT WILL BE GONE!!!** The TPP Phase out model (figure 2) shows the huge GAP left as TPP Phase-out Dollars are reduced and eventually eliminated. Fund balance precipitously falls as TPP reimbursements are systematically eliminated.

THIS SERVES AS NOTICE: *The significant fund balance as of June 30, 2012 will be gone in a very short period of time. Fund balance dollars will fill the GAP left by the loss of TPP and the mask the structural operating deficit as the school district receives fewer and fewer dollars than it spends year over year.*

CONCLUSION:

Future revenue streams are very soft numbers in light of the State's reluctance to fully fund education in Ohio and HB66. The State budget is for two years and the State does not provide any reliable budget data beyond June 2013. Furthermore, HB66 demonstrates the State's ability and willingness to significantly alter the collection of Local Tax Revenues upon which Twinsburg Schools depend. The State Budget Bill HB66 enacted July 1, 2005, is still causing uncertainty and increasing the level of forecasting difficulty as legislators keep changing the TPP phase-out timing and method.

Current fiscal year's *expenditures include encumbrances and appropriations*. Estimates of expenditures for the next four years are developed using the current year's data and trend analysis of past results. The School District's major sources of revenue for the current fiscal year are property taxes as certified by the Summit County Fiscal Officer and State Foundation Aid from the Bridge funding document. As part of the administrations fiduciary duties, continual efforts are made to reduce expenditures and to find additional sources of revenues. These efforts manifest themselves in the forecasted deficit being sharply reduced as a result of the newly adopted Operational Change Plan and modification to the collective bargaining agreements.

Public education is facing a difficult road ahead. The challenges are to provide an ever increasing level of services to children with diverse abilities, needs, backgrounds, cultures, and requirements. This must be done with a level of funding that is neither stable nor predictable. Numerous funding models, HB66, Senate Bill 5, Charter Schools, and expanding voucher programs are perniciously nibbling away at public education funding. Oftentimes factions are more concerned with their own special interests than what is best for the education of all students.

Twinsburg City School District continues to face significant challenges. During the 1990's there was significant residential and business growth. Prior reports reflect property value growth and a considerable increase in student population. However, as the State struggles with a depressed economy, state support for schools, libraries and the like, has been reduced. State budget shortages and the elimination of tangible personal property tax impacts negatively our prognostication.

The State Budget Bills and policies are having a Tremendous Impact on Twinsburg Schools in addition to the continuing uncertainty of State Funding and Tangible Personal Property Tax revenue. At the local level, Boards of Education must make decisions that will require *major budget cuts* including staff reductions and if replacement revenues will be obtained.

Someday there may be communities in Ohio where public schools as we know them do not exist.

Twinsburg City Schools
Student Fee Guidelines
2013-2014

Student fees were adopted by the Twinsburg Board of Education in 2012.
The following is important information regarding the payment of fees for the 2013-2014 school year:

Payment due dates:

Fall Sports: Friday, August 9, 2013

Club/Activity Fee: Friday, August 30, 2013

**See advisor If participation begins later in the school year (e.g. National Honor Society)

1st Semester Academic Fee/Course Fee: Friday, August 30, 2013

Winter Sports: Monday, November 18, 2013

21st Semester Academic Fee/Course Fee: Friday, January 17, 2014

Spring Sports: Monday, March 17, 2014

Any student who wishes to participate in extracurricular activities or athletics and does not have payment received in full by the due date will not be allowed to participate in any contests/scrimmages/events/meetings until payment is received.

How do I pay my fees?

We encourage you to make payments online through EZ PAY. Simply click the Online Payment link found on the district's homepage at www.twinsburg.k12.oh.us and follow the prompts. There is a \$2 vendor service charge for each EZ PAY transaction,

Payment can also be made by filling out the following form and submitting it along with payment to the building your child attends. Check or money order should be made payable to the "Twinsburg City Schools". Please include your child's name on the memo line of the check/money order. To assist with record keeping, please submit a separate form and check for each child.

Free/Reduced Lunch

*If your child receives a Free Lunch the Academic Fee (Including Course Fees) will be waived,

*If your child receives a Reduced Lunch the Academic Fee (including Course Fees) will be reduced by half. *All other fees (e.g Pay-to-Participate & Latchkey fees) will not be waived or reduced.

Refund Policy

*No refunds will be given for Academic Fees, including Course Fees.

*There are no refunds given if a student quits, is suspended, or is removed from an activity or sport for any disciplinary reason.

*If a student suffers a season-ending injury declared by a doctor's authorization then a family may apply for a pro-rated refund of the individual student's participation fee. For a refund to be granted, all uniforms and equipment must be handed in and participation with the team/club must cease entirely.

Paid participation does not guarantee that a student-athlete will play. The control and determination of playing time will remain the responsibility of the coaching staff.

Please contact the school office with questions regarding Academic Fees/Course Fees.
Questions regarding EZ PAY, athletics or extracurricular activities, please contact Mark Maslona at mmaslona@twinsburg.k12.oh.us or 330-486-2480.
