### ALTERNATIVE TAX BUDGET INFORMATION

Political Subdivisions
Excluding School Districts

Political Subdivision/Taxing Unit	Twinsburg Public Library	
For the Fiscal Year Commencing	2023	
Fiscal Officer Signature	Laura Luonard	Date 5-19-2027

### **COUNTY OF SUMMIT**

### Background

Substitute House Bill No. 129 (HB 129) effective June 3, 2002, was enacted by the 124th General Assembly in part to allow a county budget commission to waive the requirement that a taxing authority adopt a tax budget for a political subdivision or other taxing unit, pursuant to Ohio Revised Code (ORC) Section 5705.281.

Under the law in effect prior to June 3, 2002, the budget commission could only waive the tax budget for a subdivision or other taxing unit that was receiving a share of the county undivided local government fund or the county undivided local government revenue assistance fund under an alternative method or formula pursuant to ORC Sections 5747.53 and 5747.63. Thus, tax budgets could be waived only for counties, municipalities, townships and park districts. This restriction is now removed.

### Ohio Revised Code Section 5705.281

Under the amended version of this section pursuant to HB 129, a county budget commission, by an affirmative vote of a majority of the commission, including an affirmative vote by the county auditor, may waive the tax budget for any subdivision or other taxing unit. However, the commission may require the taxing authority to provide any information needed by the commission to perform its duties, including the division of the tax rates as provided under ORC Section 5705.04.

### County Budget Commission Duties

The county budget commission must still certify rates to each subdivision or other taxing unit, by March 1 for school districts and by September 1 for all other taxing authorities under ORC Section 5705.35, even when a tax budget is waived. Also, the commission is still required to issue an official certificate of estimated resources under ORC Section 5705.35 and amended official certificates of estimated resources under ORC Section 5705.36.

Therefore, when a budget commission is setting tax rates based on a taxing unit's need, for purposes of ORC Sections 5705.32, 5705.34 and 5705.341, its determination must be based on that other information the commission asked the taxing authority to provide under ORC Section 5705.281, when the tax budget was waived. Also, an official certificate must be based on that other information the commission asked the taxing authority to provide.

### County Budget Commission Action

At a May 7, 2002 Summit County Budget Commission meeting, the commission with an affirmative vote of all members waived the requirement for taxing authorities of subdivisions or other taxing units (including schools) to adopt a tax budget as provided under ORC Section 5705.281, but shall require the filing of this Alternative Tax Budget Information document on an annual basis.

### Alternative Tax Budget Information Filing Deadline

The fiscal officer of a political subdivision (not a school district) must file one signed copy of this document with the Summit County Fiscal Officer, on or before July 20.

(Adopted 5/7/02) Revised 06/29/10

June 01, 2022

# GUIDELINES FOR COMPLETING THE ALTERNATIVE TAX BUDGET INFORMATION

### **SCHEDULE I**

The general purpose of schedule 1 is to meet the requirement of Ohio Revised Code (ORC) Section 5705.04 which requires the taxing authority of each subdivision to divide the taxes levied into separate levies. For help use the Summit County Budget Commission Certification of Tax Levy Estimate issued by the budget commission for the current year and add any new levies. This will help to ensure that no levies are missed.

In column I list only those individual funds which are requesting property tax revenue. In column II purpose refers to the following terms; inside, current expenses and special levy for example. In column IV levy type refers to renewal, additional and replacement for example. In column IX state the estimate of gross property tax.

### **SCHEDULE 2**

The general purpose of schedule 2 is to demonstrate the need to produce property tax revenues to cover the estimated expenditures for the budget year.

ORC Section 5705.341 states in part; Nothing in this section or any section of the ORC shall permit or require the levying of any rate of taxation, whether within the 10 mill limitation or whether the levy has been approved by the electors, the political subdivision or the charter of a municipal corporation in excess of such 10 mill limitation, unless such rate of taxation for ensuing fiscal year is clearly required by a budget properly and lawfully adopted under this chapter or by other information required per ORC 5705.281."

Property Taxes include real estate taxes, public utility personal property taxes, homestead and rollback amounts.

Personal Property Tax Reimbursements include public utility personal property and tangible personal property reimbursement amounts.

Total Expenditures: all expenditure line items and transfers out. In columns II and III complete the data from the last two fiscal years.

### **SCHEDULE** 3

The general purpose of schedule 3 is to produce an Official Certificate of Estimated Resources for funds that do not receive property tax revenue. In column V the total estimated receipts should include all revenues plus transfers in and

### SCHEDULE 4

The general purpose of schedule 4 is to provide inside/charter millage for debt service. The basic security for payment of general obligation debt is the requirement of the levy of ad valorem property taxes within the 10 mill limitation imposed by Ohio law. Ohio law requires a levy and collection of ad valorem property tax to pay debt service on general obligation debt as it becomes due, unless that debt service is paid from other sources.

### SCHEDULE 5

The general purpose of schedule 5 is to provide for the proper amount of millage to cover debt service requirements on voted bond issues. Major capital improvement projects are sometimes financed through the use of voted bonds. The taxing authority seeks voter approval of general obligation bonds and of the levy of property taxes outside the indirect debt limitation in whatever amount is necessary to pay debt service on those bonds.

In column VI you must take into consideration any carry over plus or minus cash balance estimated for the current year. This can happen because there are no sure things concerning tax payments and the valuation of personal property taxpayers.

### **SCHEDULE 6**

The general purpose of schedule 6 is to properly account for tax anticipation notes. See schedule 6 for more details.

# **DIVISION OF TAXES LEVIED**

Levies Inside and Outside 10 Mill Limitation, Inclusive Of Debt Levies List All Approved Levies Of The Taxing Authority, including charter millage.

June 01, 2022

### TAX ANTICIPATION NOTES

SCHEDULE 6

Tax anticipation notes are issued in anticipation of the collection of the proceeds of a property tax levy. The amount of money required to cover debt service must be deposited into a bond retirement fund, from collections and distribution of the tax levy, in the amounts and at the times required to pay those debt charges as provided in the legislation authorizing the tax anticipation notes. (ORC Section 133.24)

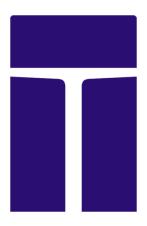

The appropriation to the fund which normally receives the tax levy proceeds is limited to the balance available after deducting the amounts to be apportioned to debt service.

After the issuance of general obligation securities or of securities to which section 133.24 of the ORC applies, the taxing authority of the subdivision shall include in its annual tax budget, and levy a property tax in a sufficient amount, with any other monies available for the purpose, to pay the debt charges on the securities payable from property tax. (ORC Section 133.25)

### **INTRODUCTION:**

A prudent reader should not make assumptions or believe that this forecast by its nature conveys anything more than an indication of a probable future financial position of the School District. Events and circumstances frequently do not occur as expected and will significantly alter the outcomes and results of the forecast and assumptions. Therefore, professional sophistication, due diligence, caution, and care are required when using and interpreting forecast information.

The Five-year Forecast is a planning document for the Twinsburg City School District. The purpose is to increase the level of communication regarding the school's fiscal status. Forecasts are built on assumptions and current state and federal laws that *can*, *will* and *do* change over time. The forecast, numbers and assumptions while made in good faith cannot be guaranteed.

The Five-year Forecast is designed to provide the administration, board of education and the public a **general indication** of a probable future financial position of the School District based on information currently available to the School District. The reasonableness of this forecast and the accuracy of assumptions rests with the District's administration and the Board of Education.

### COMMITMENT TO FISCAL RESPONSIBILITY

An educated reader knows that forecasts are not built with the precision of a Swiss time piece. One just has to look at the front page of the Wall Street Journal to see that "XYZ" Company adjusts their yearly forecast to meet market pressures. Even CEOs with salaries in the millions of dollars and Ivy League accounting departments have to make changes to their prognostications. The Benchmark for Twinsburg School District is reported by the ODE. It is the cost to educate each student. According to the FY21 CUPP Report Twinsburg spends \$13,355 per pupil. This is slightly less than State Average and Similar Districts and less than neighboring school districts. While the Twinsburg School District spends about the same as comparable districts, the Twinsburg School District is recognized by the state and U.S. News & World Report as a high performing school district.

PIL FY21
\$17,775
16,640
15,417
15,074

13,387
13,494
13,355

The Five-year Forecast is a necessary tool focusing management's attention on future financial needs while facilitating strategic planning and discussion. The financial plan should provide for the optimal allocation of scarce resources in the delivery of services to our kids. What follows is our attempt to create a forecast using professional judgment within the philosophical base rooted in four key concepts. It is a look into the future through a snapshot of today.

- **REALISTIC** We all want the best for our students. Yet there are economic realities that dictate what is possible for our school district. Our future should be realistic given our unique circumstances.
- **CAUTIOUS** A cautious approach is neither overly optimistic nor pessimistic. It seeks the prudent path in predicting revenues and expenditures.
- **PROBABLE** Given the current circumstances and the goals of our school district, this is the forecast that is most likely to occur.
- **SUPPORTABLE** A good set of projections needs to include the rationale for assumptions. This is a combination of historical trends, current conditions and professional judgment about the trends.

June 01, 2022

In 1999 House Bill No. 412 mandated that school districts annually produce a five-year forecast by December 31 and update the forecast as necessary. The Forecast documents and provides the transparency necessary to keep all stakeholders informed of the District's projected financial position. If a district entered Fiscal Emergency, one could not claim "I did not know". Current statute requires the Forecast be submitted by November 30 with an update due in April or May.

It's important to note the Ohio Supreme Court has ruled (**DeRolph**) and reaffirmed its ruling through appeal that the current method of funding public education in Ohio is *Unconstitutional*. The legislature has made attempts to correct the funding method that overly relies on local property taxes, but to date the ruling has not been satisfied.

### ODE'S FORECAST PURPOSE AND OBJECTIVES: (from: ODE website)

- 1. To engage the local board of education and community in the long range planning and discussion of financial issues facing the school district,
- 2. To serve as a basis for determining the school district's ability to sign the "412 certificate",
- 3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

### **RECENT EVENTS:**

JOB WELL DONE: Twinsburg City School District continues to receive the highest academic ratings. U.S. News & World Report ranks Twinsburg High School number 47 out of 874 Ohio high schools! THS also ranked number 1,418 in the U.S. out of more than 17,843 high schools. That is the top 8 percent nationally. The Board of Education and Administration are constantly looking at the data searching for areas to enhance educational results. In addition, the School District has received twenty-one straight Certificates of Achievement for Excellence in Financial Reporting since 2000 and numerous Awards with Distinction given by Auditor of State's Office for obtaining a clean audit. While attaining these ratings and awards, the School District closely monitors expenditures looking for ways to contain costs. As a result, Twinsburg School District's current per-pupil expenditures are below the State's average and neighboring districts.

**LEVY:** The Twinsburg School District has long appreciated the support of our local communities. Historically the Twinsburg community voters support renewal levies at a sixty percent approval rate.

**LEGISLATION:** There are two important state statutes that have capped the amount of tax dollars a school district receive or have completely eliminated it. In 1976, House Bill 920 (HB 920) was signed into law capping the amount of property tax collected. Property taxes cannot increase as a home's appraised value increases due to inflation. Secondly and very importantly is House Bill 66 (HB66) enacted July 1, 2005. HB66 eliminated the taxation of *Tangible Personal Property* (TPP). The TPP tax was a local source of revenue collected from local businesses. For Schools statewide, TPP collections in 2004 were estimated to be \$1.6 billion annually. For Twinsburg School District this lost revenue accounted for \$9.8 million annually or approximately 28% of revenues at the time this legislation was passed. High performing school districts with a large commercial/industrial base like Twinsburg, Solon, Bedford, Berea and Cuyahoga Heights were forced to deal with the loss of a significant amount of revenue.

STATE LEGISLATORS: State Legislators, influenced by campaign contributions, have embraced legislation under the guise of educational choice to siphon away approximately 1 billion in public education tax dollars to charter schools, electronic schools, and for-profit corporate educational enterprises. Charter Schools lack transparency and accountability as legislation exempts them from many laws and regulations. Charter schools attract the likes of Michael Milken, the "Junk Bond King", who according to an April 26, 1990 New York Times article "in U.S. District Court Tuesday he (Michael Milken) pleaded guilty to six felonies and agreed to put up \$600 million, \$200 million of that in fines, to settle the biggest fraud case in the history of the securities industry".

June 01, 2022

FINANCIAL UNCERTAINTY: The federal government's efforts to stem the financial meltdown from 9/11, the 2008 mortgage crisis and the current COVID-19 Pandemic has added trillions and trillions of dollars to an already staggering national debt. The national debt is over \$30 Trillion. As a consequence, the nation's is shifting from an economic crisis to a debt crisis! Nearly fifteen percent of federal revenues are used to pay interest, second only to spending for the social programs of Health and Human Services, HUD and food stamps. As debt levels continue to grow in support of economic vitality a larger and larger portion of the nation's budget will go to make debt payments. Unfortunately, the US economy is plodding along on borrowed money and borrowed time.

**THE FORECAST** should be thought of as a Barometer showing the rise and fall in financial pressure. It is not an unwavering course with exacting routes and distances. Similar to a GPS Navigation device, the Forecast will show you your destination and "Recalculates" when obstacles and detours are encountered.

The forecasted expenditures are developed using the current year's data and trend analysis of past results. The School District's two major sources of revenue for the current fiscal year are property taxes as certified by the Summit County Fiscal

Officer and State Foundation Aid from the ODE. As part of the administrations fiduciary duties, continual efforts are made to reduce expenditures and source additional

revenues. *It is important to note that future forecasts will differ.* Decisions made at the State and Federal level, inflation, fluctuating energy costs, health care premiums, the number of sick days used, and unfunded state mandates for student sub-groups, to name a few, will impact the future years as presented in the forecast.

The School District has made substantial efforts to contain costs. In 2013 the School District trimmed \$2.6 million dollars from the budget. Negotiating labor contracts, upgrading equipment, consortium buying, grant opportunities, and conservative hiring practices help to contain overall costs. The Administration and Board of Education endeavor to create dynamic curriculum and safe learning environment that challenge all students' creative, analytical and critical thinking abilities and skills beyond standardized requirements.

### **REVENUES:**

### Line 1.010 - Real Estate Taxes

After decades of growth, Real Estate Valuations decreased following the Housing Market/Home

Mortgage fiasco 2008/2009. The Chrysler facility, at one time the City's largest employer closed March 2010. It was subsequently demolished reducing taxable values and property tax collections. To attract new business, the City negotiated property tax abatements on redevelopment projects. A slight uptick in valuations has resulted from new construction and reappraisals. Monitoring of real property tax collections is crucial as it represents over 74% of FY22 revenues.

### <u>Line 1.020 – Tangible Personal Taxes (TPP)</u>

HB 66 legislation enacted in 2005 eliminated the tax on substantially all business owned Tangible Personal Property. HB

66 set forth that the State for five years would reimburse districts the amount of lost revenues (\$1.6 billion annually). Then starting in tax year 2011 would incrementally <u>eliminate</u> the reimbursement via the State controlled Commercial Activity Tax (CAT). As the State eliminates the TPP/CAT reimbursements these dollars are used to fill the State's coffers at the expense of Local Governments. For Twinsburg Schools the TPP tax collection in the base year 2004 was \$9.8 million and on line 1.020. The FY 21 TPP reimbursement on line 1.050 was \$1 million – a reduction of \$8 million, equivalent to 8 mills. <u>Twinsburg School District</u> has permanently lost this revenue and is potentially facing *FISCAL EMERGENCY*.

June 01, 2022

### Line 1.035 – Foundation Program

The Foundation Program is the State's aid program for funding school district operations. Since 2009, the State has renamed and reformulated the calculations five times. These reformulations have cost Twinsburg Schools a significant amount of money. The September 2019 #2 SFPR indicates that Twinsburg School District should receive over \$9.2 million in State aid. However, this funding is "Capped" at \$5.9 million due to the reformulations. The result is an annual loss of \$3.2 million due to the "Cap".

Due to the COVID-19 Pandemic, the Governor of Ohio cut the State's FY20 budget \$775 million and slashed \$355 million from education. The Twinsburg School District was reduced \$874,259 or 15% of state funding. For FY21, foundation aid from the State was cut \$302,384. This Five Year Forecast covers a time frame that includes two State Biennium Budget Cycles clearly decreasing forecasting confidence. School Districts have neither control nor insight into future state budgets and unforeseen events such as COVID-19.

The latest State's biennium budget includes the Fair Schools Funding Plan. It is an input-based methodology for determining the base cost of education. The base cost amount can be thought of as the cost to educate the typical student in the typical district. This methodology also implies that the school funding plan will provide funding based on enrollment as opposed to Formula ADM. Thus community schools and EdChoice, Jon Peterson, and Autism voucher students will be funded directly by the state. One criticisms of The Fair School Funding Plan is that the Ohio legislature is only committed to the plan for two years.

<u>Casino Money</u>: Ohioans approved four Casinos in Ohio. Typically, Ohio Schools receive approximately \$50 per pupil from casino revenues. Twinsburg Schools received \$220,843 in FY20 and \$169,813 in FY21.

### <u>Line 1.050 – Homestead and Rollback including Direct TPP payments</u>

Homestead and Rollback payments represent the reimbursement of a 10% discount given property owners and an additional 2.5% discount is given to owner occupied parcels. Taxpayers were promised Real Estate tax relief when the State proposed the income tax in 1972. In 2013 HB59 ended this promise by ending the discount and reimbursement on all new levies. The TPP direct reimbursement payments from the State's CAT Tax flows through line 1.050 as required by the Auditor of State. TPP Reimbursement was \$1,979,417 in FY19, \$1,476,909 in FY20, and \$1,001,929 in FY 21 and will be reduced annually by half-amillion dollars until it is gone/zero. A cumulative cash flow loss of \$7,458,372 over five years

### Line 1.060 – All Other Sources

All other revenues include investment interest, tuition, student fees (consumables, P2P, chromebooks, etc.), rental charges, and miscellaneous receipts.

### **EXPENDITURES:**

### Line 3.010 – Personal Services

Salaries for fiscal year 2022 are based upon the current contracts for teachers and staff.

Additional staff were hired to facilitate teaching and learning during the COVID pandemic. The General Fund and Federal ESSER funds are to be used to support the additional cost. In light of economic pressures and with salaries and benefits accounting for over 85 cents of every dollar spent the School District may fall short of future staffing expectations as economic pressures grow.

Increased staffing has put a significant strain on organizational operations. The State continues to implement programming without any funding assistance. FY 14 saw the addition at the elementary level of two reading specialists to support struggling readers transcend the third grade reading guarantee and three-and-a-half administrative staff to facilitate the ever-increasing state mandates. Currently, efforts to support student achievement throughout the district have resulted in bringing additional staff on board. Five teachers were hired as academic coaches. The increasing demands for on-line testing resulted in the addition of three technology staff members. Increased staffing levels of Intervention Specialists, Preschool Staff, Reading and Math Supports, School Counselors, and Maker Space staff have put markedly upward pressure on salaries and benefits. TCSD recently welcomed the Director of Student Wellness, an Administrator at RBC, a Blended Learning Coach, a Success Teacher,

June 01, 2022

a Music Teacher and additional staff to service the increasing special needs of students. According to the ODE's Fiscal Benchmark report teacher Full-Time-Equivalents increased from 226.2 in FY18 to 266.3 in FY21

### <u>Line 3.020 – Employee Retirement and Insurance</u>

Fringe benefits are calculated as a percentage of total salaries and wages. Costs for benefits include 14% for retirement (STRS and SERS) and 1.45% for Medicare. Health Care (HC) costs increase annually and have tripled since 1999 and continue to out-pace inflation. The School District is a member of a HC Consortium that covers over 15,000 lives (shared services). It is self-funded and has a statutory cash reserve they are required to maintain. When the Consortium has a favorable claims experience for a year, the reserve will exceed the required amount. The Consortium then rebates the excess reserves to the member districts via "Premium Holiday". Recently there has been two premium holidays per year but FY23 will have only one.

### Line 3.030 – Purchased Services

Purchase Services represent items from utility costs to liability insurance, to copier leases, to legal fees, to health/nursing related services, to behavioral health services, to tuition costs for students educated by other districts. The costs for services for special needs students, test scoring, and professional development are ever increasing. Tuition prior to the current state biennium budget encompassed State deductions for charter and electronic schools, Peterson deductions, Autism deductions and direct payments for outplaced special needs students. These expenditures have increased approximately from \$500,000 in FY10 to \$2 million in FY21.

The School District utilizes the buying power of the Ohio School Council Consortium for electricity and natural gas. Multiple energy conservation projects mild winters and stable natural gas pricing have favorably impacted energy expenditures. However, rising energy and diesel costs are a concern moving forward. The School District and the City's fitness center have a utility sharing agreement. We budget and pay the entire utility cost and subsequently are reimbursed by the City for their portion of the cost. Technology is becoming a greater and greater partner of learning, driving costs upward for educational software licenses. Technology is supporting more and more administrative functions via software purchases.

### Line 3.040 – Supplies and Materials

Includes educational supplies, classroom consumables, as well as paper and cleaning supplies. Fuel, tires and repair parts for the School District's fleet of 40 plus buses are incorporated in this category. The School District participates in several purchasing consortiums to reduce expenditure costs on routine purchases.

### <u>Line 3.050 – Capital Outlay</u>

The Permanent Improvement fund is used for capital expenditures. Current capital outlay expenditures are for the School District's one-to-one technology project to supply students with a Chromebook.

### Line 4.300 – Other (Expenditures)

The bulk of expenditures for this category are non-discretionary fees associated with the Summit County tax collection process \$573,906 in FY21, in addition to fees the State charges. These fees are set by laws and cannot be changed or altered by the School District. Also in this category are audit costs, ESC costs, membership fees, etc.

### <u>Lines 4.020 to 4.060 – Repayment of Debt Service</u>

Multiple Energy Conservation Projects at the Twinsburg School District have replaced lighting, boilers and HVAC controls. The LED lighting upgrades and high efficiency boilers help reduce energy costs. These projects are financed via reductions in utility costs line 3.030. Debt payments are made from this line utilizing a utility cost off-set.

### WHERE HAS ALL THE MONEY GONE?

A Cleveland Plain Dealer editorial from Sunday October 24, 2010 entitled "Schools need long-term FIXES, MONEY today" states "public schools are in deep, deep trouble." It continues with "... excellent districts are imperiled by a shrinking tax base, rising number of needy and disabled students, galloping costs for special education, equipment, textbooks and services and a tide of new unfunded state mandates." "These problems are likely to get worse..." These issues are still the same today.

At the national level, Federal spending has ballooned the national debt to over \$30 trillion. At some point will the Federal Government reach the limits of deficit spending? At the local level voter fatigue manifests itself in increased push back as districts attempt to obtain additional funding to offset State reductions and education segment demands. Ultimately, the local communities will determine the quality of the Twinsburg City School District.

Twinsburg School District currently has a significant fund balance. It will be gone in a very short time as it will be used to balance the budget over the next several years. The Fund Balance precipitously falls masking the structural operating deficit left by the Phase out of the TPP/CAT and fiscal pressures created COVID-19 pandemic expenditures. THEN IT WILL BE GONE!!!

A New Tax Levy and/or Significant Budget Cuts Are Needed NOW To Balance The Budget.

### **CONCLUSION:**

Future revenue streams are very soft numbers in light of the State's reluctance to fully fund its share of education in Ohio. The State's budget is for two years and the State does not provide any budget data beyond June 2023. The State's new school funding program "The Ohio Fair School Funding Plan" is in law for only 2 years and some think it was cover for lawmakers to slip in the poison pill of significantly funding vouchers for private and parochial schools, adding hundreds of millions of state dollars in both direct funding and tax credits to subsidize families sending their children to private schools.

Twinsburg City School District continues to face significant challenges. The challenges are to provide an ever increasing level of services to children with diverse abilities, needs, backgrounds, cultures, and requirements. This must be accomplished with a level of funding that is neither stable nor predictable. Numerous funding models, Charter Schools, voucher programs and the like are perniciously eating away at public education funding and negatively impacting our prognostication. Oftentimes factions and legislators are more concerned with their own special interests and campaign coffers than what is best for the education of <u>all</u> students and taxpayers.

The State is shifting the tax burden from the State to the local level by cutting the State's funding obligation. Boards of Education must make decisions that will require *major budget cuts* and staff reductions while deciding if replacement revenues will be supported.

If self-serving political action groups are permitted to continue to influence educational policies via campaign contributions, someday there may be communities in Ohio where public schools as we know them do not exist as corporate carpet baggers syphon precious dollars for their own enrichment. When education becomes a "commodity," said Nobel Peace Prize winner and Indian social reformer Kailash Satyarthi, "[t]hose who can afford to buy it, buy it, and those who sell it make plenty of money out of it."

Respectfully Submitted Martin Aho, Treasurer/CFO
