

## **Board of Education President's Report**

**Rob Felber**

**October 2, 2019**

Good evening and welcome to the students, staff, and families from Samuel Bissell Elementary and R. B. Chamberlin Middle School.

This is the meeting of the Board of Education for October 2, 2019. I am Rob Felber and I am honored to serve as your president of the Board of Education. Tonight we have several administration reports. Recently the state released the annual report cards. While we're pleased with the overall report, we recognize several key points. 1) This is only a snapshot of a moment in time for our students. 2) The administrative team uses this and many other assessments to form continuous improvement plans beyond the state-mandated assessments. 3) A more detailed accountability report of the district can be found in our recently published Quality Profile. This report follows the guidelines established by The Alliance for High-Quality education, an education consortium of which Twinsburg is a member. Over 75 Ohio districts publish such a report. The first of three reports tonight will be on the Local Report Card. We will also hear updates on our blended learning initiative and a third report on how are Makerspaces are impacting our students.

As we look out in the audience, we're reminded why we're here, our amazing students. So, without further delay, I'll turn the meeting over to Superintendent Powers for her Superintendent's report.
