

The following tool has been approved and can be used contingent on the following requirements:

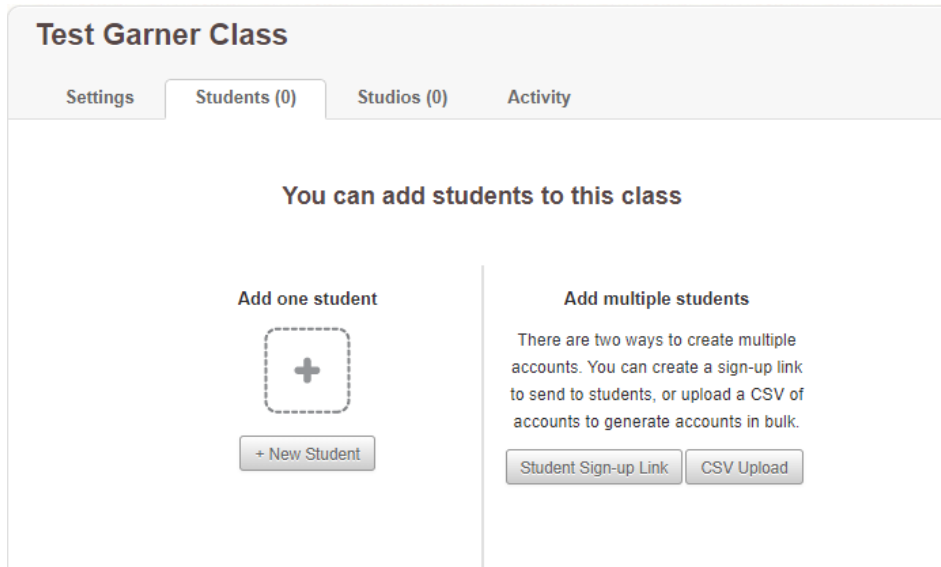

Tool: Scratch

Requirements:

1. Students must have a COPPA form giving consent on file
2. Teachers must apply for a teacher account using the following link:

<https://scratch.mit.edu/educators/register>

3. Add Students to your class using any of the following methods in the picture below
4. Use their twinsburg network username (ts1213999) and password to create their accounts. Use their first name and last initial when entering their names.

5. Students login using the username and password you created or use the link you shared with them and create their own account.

Sharing Projects

1. CAUTION: Students can share their project to a community. Please discuss with them about sharing and using Internet Safety sense. Remind them not to share personal information.
2. Students are encouraged not to share projects.
3. You can check the student in your class and it will show if a project has been shared. Please ask the student to go into My Stuff and unshare their project.

Comments

1. Students should also turn off allow comments when creating their projects.
