

**Notice of Twinsburg City School District
Curriculum, Testing, or Assessment Technology Providers**

Required Pursuant to Ohio Revised Code §3319.326(G)

The Twinsburg City School District is committed to ensuring that technology utilized within the District's classrooms enhances learning while prioritizing the privacy and security of our students' information and education records.

The Twinsburg City School District is required to provide annual notice to our families of the curriculum, testing, or assessment technology providers that affect a student's educational records. Technology providers are defined to include any entity "who contracts with a school district to provide a school-issued device for student use and creates, receives or maintains educational records pursuant or incident to its contract with the district."

By law, none of the technology providers are permitted to use student education records for commercial purposes or to share educational records except for compliance with fulfilling the contract with the Twinsburg City School District.

The Twinsburg City School District engages in a thorough process of review of the technology provider contracts to work to the best of its ability to ensure the technology providers are complying with state and federal laws as applicable, including, but not limited to FERPA (20 USC 1232g et al.), Children's Online Privacy Protection Act (COPPA), Children's Internet Protection Act (CIPA), Americans with Disabilities Act (ADA), ORC §3319.321, ORC §3319.326.

The curriculum, testing, and assessment technology providers contracted by the Twinsburg City School District can be accessed via the [Technology Department](#) on the Twinsburg City School District's website. This landing page includes information on each of the curriculum, testing, and assessment technology providers, including identification of the technology provider, identification of the educational records affected by that contract, information on how to access the contract with the technology provider, and contact information for a Twinsburg City School District employee who can provide assistance. As this is new legislation, the website is a work in progress with updates provided on a regular basis.
