

Sharing a Quizlet Study Set

Once your study set has been created you may share it with students. They do not need Quizlet accounts to do the study sets.

1. Create the Study Set
2. If the study set has already been created you can access through My Study Set in the right navigation
3. Click the share button

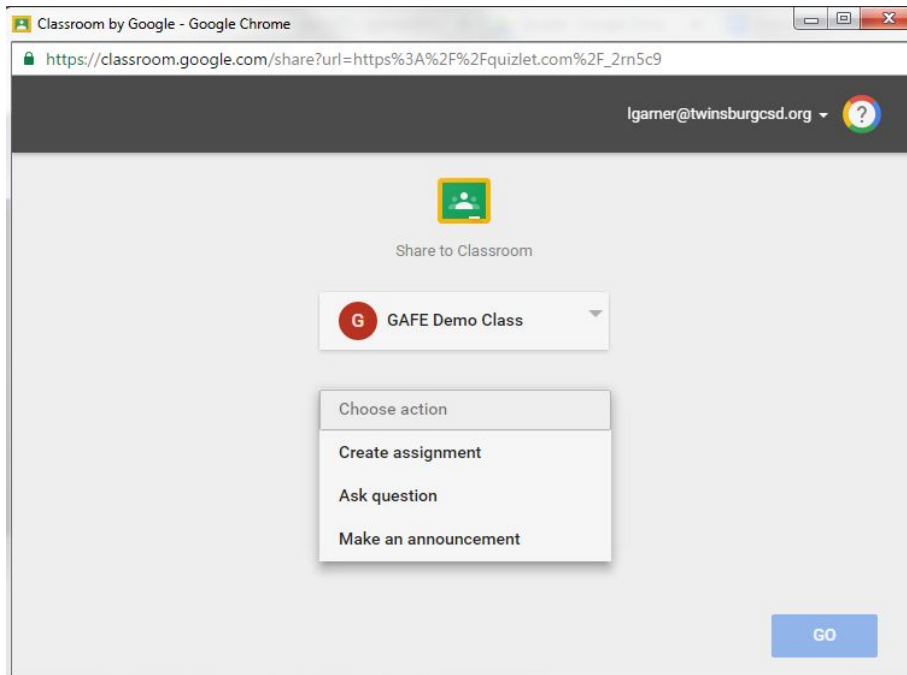

4. Choose the way you'd like to share the study set

If you chose to share the study set through the short URL, students can type the short URL into the address bar of the Internet Browser or you can copy/paste the link somewhere on your website and have students access it there.

If you choose to Share on Google Classroom
You will be prompted to enter your g-suite credentials
A list of your classes will come up
Choose the class you wish to share the study set with
Choose whether you'd like it to be an assignment, question or announcement
Fill out the required fields

If you chose to share the study set through Google Classroom, students will need to log into google classroom and access the study set from the classroom page.
