

Writereader Requirements

Requirements of free version:

1. Students must have a signed COPPA form giving consent, on file. The COPPA form is a form that is a part of their returning or new student registration through Powerschool Registration
2. Teachers and students should not log in with Google Classroom due to concerns with what writereader wants to access. Especially in conjunction with viewing emails of people in your class.

3. Teachers can log in with their school Google Account or create an account using their school email
4. Teachers should use the Twinsburg network id as the students' username, first name and last initial when adding students to a class
5. Students need to login to writereader using the username and class code the teacher provides
