

## Getting Started with eSchoolview – Website Content Management System

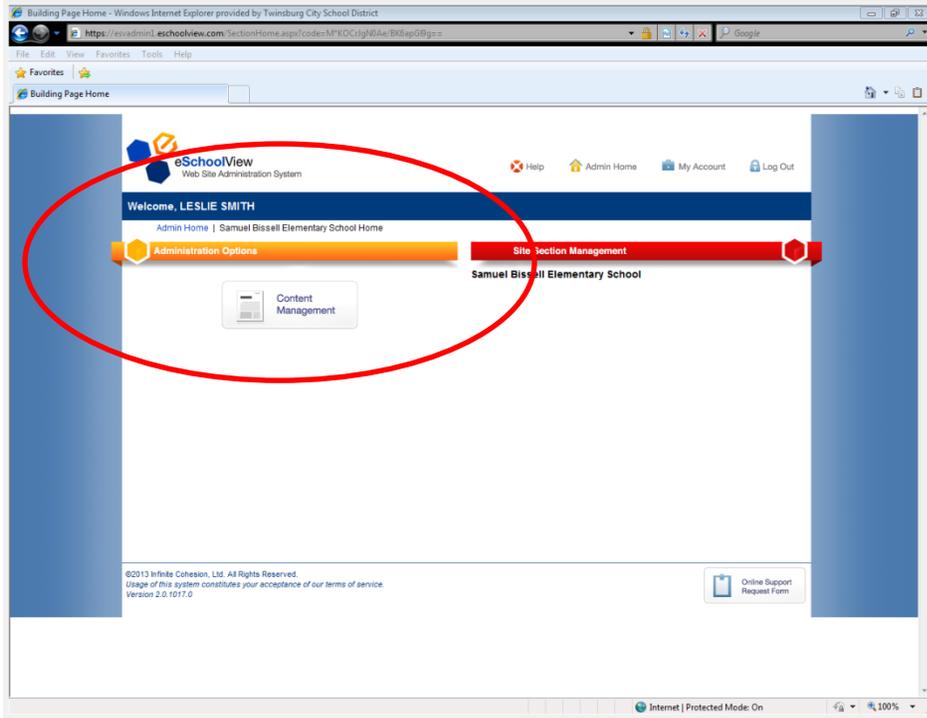

Use your network username and password to log in:

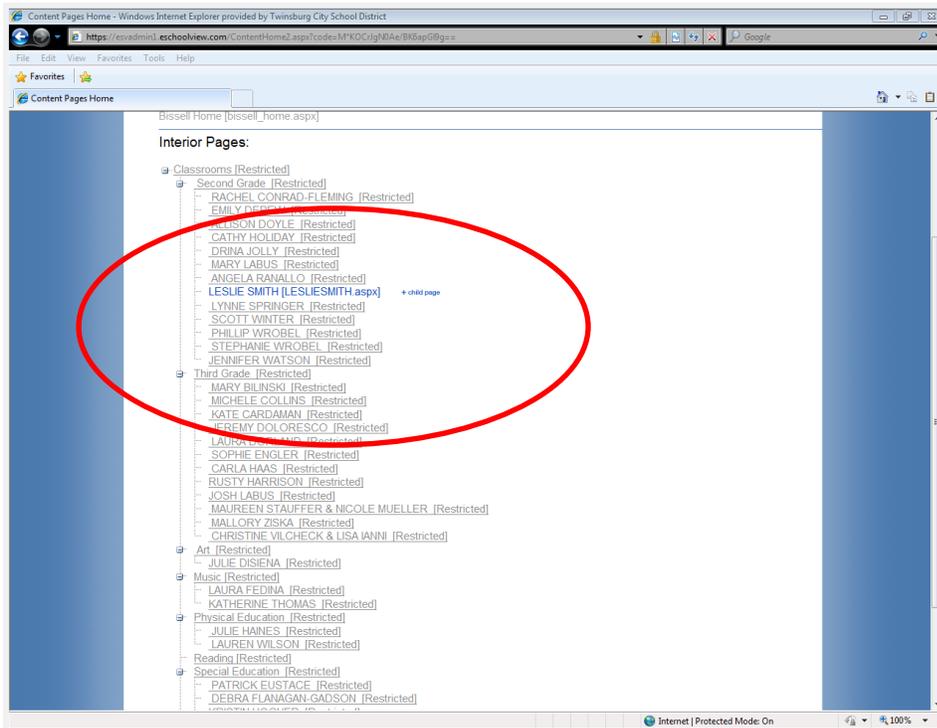

Choose your building:

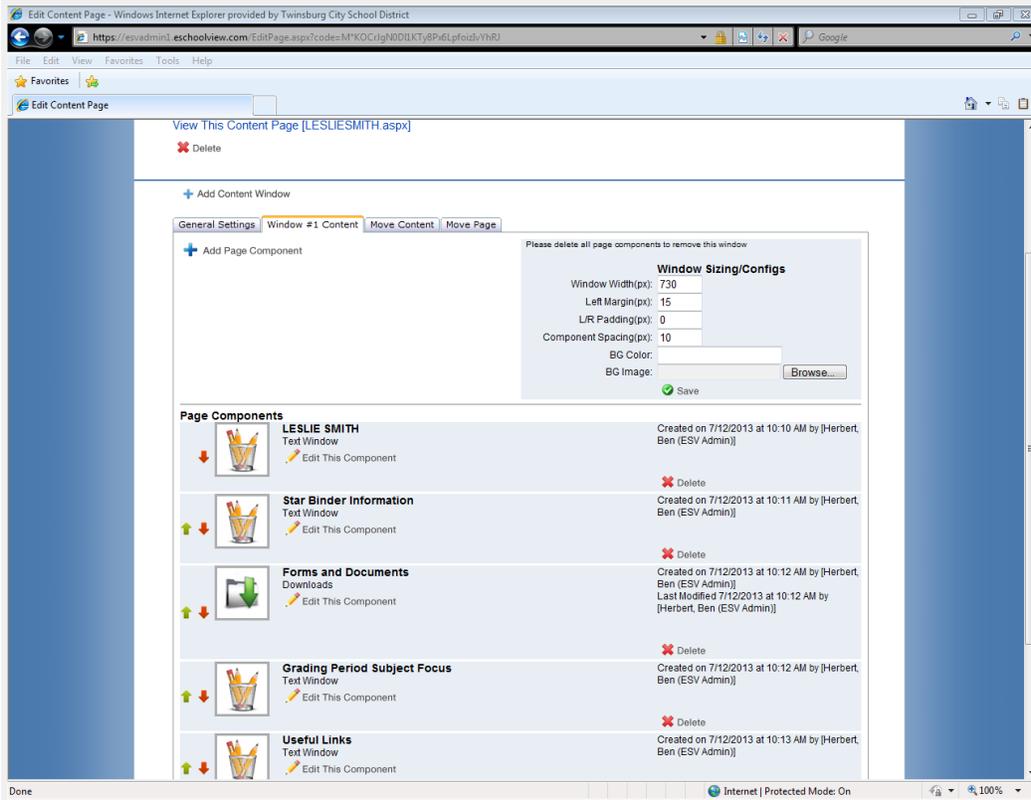

You will want to choose Content Management to get to your pages.

Your pages will be Blue. If there is a plus sign next to it, click that to see your other pages. Click the page you want to edit.

You will see your page components.

Please use the online Help for videos and documentation.

**Administration Option videos are now available!**

Here you will find helpful videos about Administration Options and Page Components along with Documentation on specific areas and/or features of our CMS. Our videos will open in a new window and is approximately two minutes in length. We feel these videos will provide assistance in overcoming small obstacles when working in the Content Management System. Feel free to use the Online Support Request Form below if you would like to see a particular video added to the Video Center or if you have any questions.

Thank you,
